

PUC 2515 Pole 150 cm silver

Article number (SKU)
Colour

7225154
Silver

Key Benefits

- Cable management
- Modular

The PUC 2515 is a 150 cm pole and is a part of the modular Connect-it system with which you can create a ceiling solution for medium- to large-sized displays.

The PUC 2515 is equipped with a multiple cable inlay system with which you can quickly and simply ensure that all cables are hidden. The pole is made of aluminium and, therefore, it can be easily cut at the required length. The Connect-it poles can be customized by the user. By inserting the plastic cover strips into the Connect-it pole or by replacing them by differently coloured strips, it can be customized to the house style of the customer. Multiple displays can easily be installed back-to-back, on top of each other or next to each other. Combine this pole with one of the Connect-it ceiling plates, Connect-it interface bar and Connect-it interface display strips for a complete ceiling solution.
